

Schindler 9300[®] AE design options

Durable inside. Elegant outside.

The Schindler 9300[®] Advanced Edition offers two option packages for creating fully individualized configurations to fit your unique architectural design.

The Standard Package offers great value for the most frequently requested options and delivers aesthetic and performance enhancements. The Custom Package offers an expanded selection of dramatic pre-engineered solutions that maximize your design possibilities.

With the Schindler 9300 AE, you have unprecedented color choices, to blend your new escalator into your building's environment. Color can be applied to any surface of your escalator including handrails, steps, skirt panels, decking, end caps and more.

A choice of balustrade designs allows you to balance the aesthetic, safety and durability requirements of virtually any location and traffic environment.

Handrail or skirt illumination can add drama and visual appeal, as well as the safety and convenience to your Schindler 9300 AE escalator.

Take advantage of these option packages to create a Schindler 9300 AE escalator that is uniquely your own.

Schindler 9300® AE design options

		Standard	Custom
